WORK EXPERIENCE

US NAVY, USS ROSS

NAVSTA Rota/Base Naval de Rota, Spain

Lieutenant, Auxiliaries Division Officer

May 2016 - August 2020

- Secret-level security clearance (active)
- Managed 13 personnel. Ensured critical maintenance was performed on ship's machinery to keep Navy European defense forces combat ready while cultivating camaraderie and mission focus among individual team members
- Fostered effective American-Spanish military relations by interfacing daily with Spain's military personnel and civilian contractors. Served as a key liaison between both sides and coordinated millions of dollars' worth of repairs while in port
- Utilized communication skills during oral presentations to groups of 40 people explaining plans for executing high risk procedures such as refueling alongside ships at sea. Ensured everyone possessed a shared mental model, resulting in 100% mission accomplishment in over 50 such hazardous exercises
- Determined staffing requirements by analyzing future capability gaps in workforce and scheduled schools for employees to attend, resulting in a team of competent technicians with no gaps in necessary qualifications for three years
- Developed staff of 21 mechanics to maximum potential and assessed performance by establishing team objectives, setting goals, and regularly conducting performance reviews
- Prevented catastrophic failure of ship's sophisticated pipe mechanisms by regularly communicating maintenance plans with senior leaders of different departments, ensuring thousands of valves onboard were operating optimally.
- Led an eight-man Navigation team in maneuvering ship through more than 50 stressful situations at sea including dealing with adversary forces, transits through congested waterways, and complicated military operations with ally nations

US NAVY RESERVE, HELICOPTER MINE COUNTERMEASURES SQUADRON 15

Norfolk, VA

Seaman, Logistics Manager

May 2012 - August 2014

- Managed shipping, storing, and receipt of high-priority aircraft parts as a six-employee team, allowing squadron's helicopters to complete all assigned missions in US and in Bahrain with no mechanical failures for a period of two years
